Dear author,

please, update your submission to RaTSiF-2026 spring entitled REAL-TIME 3D OUTDOOR LOCALIZATION USING UWB, GNSS, AND IMU FUSION WITH DEEP LEARNING in line with the recommendation below:

The abstract describes intended work rather than completed research - please revise it to present the results that were actually obtained.

Please, upload you updates submission not later than April 1, 2026.

Thank you.

Best regards,
Jelena Rutkovska

Dear Professor,

I received the following feedback from RaTSiF regarding my submission. I am currently conducting my research and would like your advice on how to address this. They mentioned that my abstract describes intended work rather than completed research and asked me to revise it to present the results that have actually been obtained.

What would you recommend I do in this situation?

Best regards,

Dear Pramod,

At first, you Abstract it was accepted:

Submission	Pramod Geevinda Sandaruwan Wijendra Gamladdalage. REAL-TIME 3D OUTDOOR LOCALIZATION USING UWB, GNSS, AND IMU FUSION WITH DEEP LEARNING
Decision	ACCEPT (accept)

So, you need to prepare the presentation, taking the remarks into account.

Secondary, my recommendations it was:

Seems that replacement of "expected" results by achieved results as well as more detail description of the NN structure (as the improvement of submitted Abstract) may be enough.

Please, rephrase the last part of Abstract and upload the revision, and start to presentation. When you will be ready, we can discuss the draft of it.

Best regards,

Professor, Dr.sc.ing. Alexander Grakovski

Dear Professor,

I have submitted the revised abstract with the neural network architecture and updated results. I have also started the presentation and will share a draft after it is completed.

Best regards,
Pramod
